

b2b origin

*If Selling to Other Businesses is Your Business,
Then We're in Business*

Please join us in being part of our new B2B directory web site - A simple, straightforward directory of companies, associations and organizations that focus on commercial business.

On our directory web site, you do not just get a listing - You get a full page screen, with a description of your business, your contact information (with links to your own website and e-mail address) and we will include several photos of your product, logo or other promotional item (*Please provide in jpg or gif format*).

We are offering this to you at an inauguration price of **\$100** for a 1 year listing. A cost that you can recover with only one sale generated from the web site.

We will be expanding and promoting this directory. There are now business articles on the web site that are being read by business people. And, I will be adding more articles, to promote the web site as a source of information.

Please visit the web site to view it for yourself. As a businessperson, you will appreciate the simple, direct presentation of the information - The way that business users want their information presented.

The site is found at: www.b2bOrigin.com - A simple site to remember.

Please include your payment for \$100, payable to: **Neil Doherty - Trade Services**
410 Praley Street SW E-mail: neil@ndtradeservices.com
